Aug 2012	\$236,756,297	\$240,982,798	(\$4,226,501)	\$233,963,881	(1.8%)
Sep 2012	\$180,553,603	\$180,714,920	(\$161,317)	\$175,451,379	(0.1%)
Oct 2012	\$184,316,563	\$188,747,361	(\$4,430,797)	\$183,249,865	(2.3%)

Walmart Planning Model - Assumptions

Blue-font cells are editable. Plans are illustrative and do not represent Walmart internal budgets.

Scenario	Growth Rate	Holiday Uplift	Purpose
Base	3.0%	0.0%	Illustrative prior-year comparable-week benchmark
Upside	5.0%	1.0%	Stronger growth and holiday performance
Downside	1.0%	-1.0%	Slower growth and weaker holiday performance
Selected Scenario	Base		

Model convention	Value	Units	Year / As Of	Source	Notes
Evaluation period	Jan 6-Oct 26, 2012	Weekly	2012-10-26	Walmart competition data	Matches Power BI report
Planning basis	Prior-year comparable week	Method	2012	Project methodology	52-week lag
Base growth	3.0%	Rate	2012	Project assumption	Editable in B6 Selected after chronological testing
Forecast method	Seasonal naive	Method	2012	Python pipeline	
Currency	USD	Dollars	2012	Source data	No inflation adjustment
